Assignment: Design a newsletter with multiple columns, images and hyperlinks

SCHOOL OF COMPUTER APPLICATION

DEAN'S MESSAGE

WELCOME TO THE SCHOOL OF COMPUTER APPLICATION AT BBD UNIVERSITY

The Department of Computer Applications, SoCA, BBDU aims to establish itself on a global level by producing highly skilled, highly moral, technologically savvy computer application professionals who can adapt to new challenges in information technologies and their applications to meet changing societal and industrial demands. Our goal is to provide the students with the tools they need to become globally competent by strengthening their problem-solving abilities and exposing them to the newest advancements in the field of information technology . A team of motivated faculty members with a diverse variety of research interests work in the department. The faculty members of the Department of Computer Applications have outstanding academic backgrounds. The faculty is dedicated to educating and creating a positive learning environment for the development of the students. With this in mind.

ABOUT THE SCHOOL

The School of Computer Applications was established in the year 2010 and is committed to academic excellence, with a special focus on teaching-learning process, research, and holistic development. The school which has gained the reputation to be the best BCA college in UP has a team of highly qualified faculty members with rich experience in research, industry, and academics.

VISION

To foster true professionals who aim only towards going past all the conventions and limitations that have held us back till now!

MISSION

“To provide an equal opportunity to the young generation for evolving their core competencies for building up their career as a world class business professionals with broad based foundations, in depth knowledge and versatile personality to meet the challenges of global economy”

WHY COMPUTER APPLICATION

Computers are practically taking over the world. First they got to the core of every machine and now they are replacing humans from almost every field. Soon, there won't be humans to manage, only these computers.

The field of computer applications and its courses are what make the aforementioned possible. The study of computer applications involves the study of working of computers, its operating systems, and mostly teaches individuals languages, mathematical modelling and other means to develop better and advanced computer applications. Not only does it help us to develop far better and more intelligent working systems, but it also increases productivity and reduces effort and, with time, money.

Practically speaking also, the demand for such developers is almost at an all-time high and is steadily increasing, with companies and tech giants willing to pay more and more with each passing year, making this field a very wise choice for a fruitful and eventful career.

STUDENT COMMUNITIES

The Student Communities at BBD University provide a learning experience for the members as Students are responsible for organizing, regulating and scheduling intra-institute and inter-institute activities under the direction of faculties. The communities endeavours to develop the personality of students and also assists in unleashing creativity and enhancing team spirit. The main purpose of these student communities is to enhance their skills and to accentuate their understanding of socially relevant issues and a progressive learning graph to be a technically sound holistic professional and a responsible citizen. BBD University has student communities which allow the students to meet a diverse population of people and to expand their experience and provide ample opportunities to students by their active representation in educational, extracurricular and community development opportunities.
